

Acme Robotics Product FAQ (Sample PDF)

Q: What is the battery life of the Acme R1 delivery robot?

A: The Acme R1 has a battery life of approximately 9 hours under continuous operation, or roughly 14 hours in standby mode.

Q: How long does it take to fully charge the Acme R1?

A: A full charge from empty takes about 2.5 hours using the standard fast-charging dock included with every unit.

Q: What is the maximum payload capacity?

A: The Acme R1 can carry up to 25 kilograms of cargo across flat indoor surfaces, and up to 15 kilograms outdoors.

Q: What is the warranty period for the Acme R1?

A: All Acme R1 units come with a standard 2-year warranty covering manufacturing defects and battery degradation below 80%.
